International Journal of Computer and Communication Engineering

Volume 4, Number 3, May 2015

- Research on Attribute Based Encryption Schemes and Its Advanced Functions** **145**
Kunlun Gao, Xingkun Xu, Chi Chen, Wei Yuan
- Intrusion Detection of Hello Flood Attack in WSNs Using Location Verification Scheme** **156**
Rawan S. Hassoubah, Suhare M. Solaiman, Manal A. Abdullah
- VTMine Framework as Applied to Process Mining Modeling** **166**
Sergey Andreevich Shershakov
- Data- and Rule-Based Integrated Mechanism for Job Shop Scheduling** **180**
Yanhong Wang, Dandan Ji
- Multi-hashing for Protecting Web Applications from SQL Injection Attacks** **187**
Yogesh Bansal, Jin H. Park
- Modeling and Analysis of Incoming Raw Materials Business Process: A Process Mining Approach** **196**
Mahendrawathi Er, Hanim Maria Astuti, Dita Pramitasari
- Three-Phase Induction Motor DTC-SVPWM Scheme with Self-tuning PI-Type Fuzzy Controller** **204**
Hongxia Yu, Zhicheng Chen
- Applicability of Multi-modal Public Transport System Based on Accessibility Analysis** **211**
Yi Zhao, Jian Lu, Hongtong Qiu
