International Journal of Computer and Communication Engineering

Volume 5, Number 2, March 2016

Robust Video Target Tracking Based on Multi-feature Fusion and H_∞ Filtering	79
Howard Wang, Sing Kiong Nguang	
Support to Apply Accessibility Guidelines to Web Applications	99
Tamaki Ohara, Hajime Iwata, Junko Shirogane, Yoshiaki Fukazawa	
Modeling and Querying Multidimensional Bitemporal Data Warehouses	110
Canan Eren Atay, Güzde Alp	
Extensible Multiple Spanning Tree Protocol for Virtual eXtensible LAN	120
Seok Weon Seo, Seong Mun Kim, Sung Gi Min	
Technical Requirements of the e-Waybill Service	130
Shoaib Bakhtyar, Johan Holmgren, Jan A. Persson	
The CONCEPT Project: Decoding the IT Needs of the Professional Designer When in Remote Collaboration during the Early Stages of the Design Process	141
Liapis Aggelos, Didaskalou Alexandros, Thiveos Konstantinos	
Parallel Matrix Multiplication on Centralized Diamond Architecture	151
Masumeh Damrudi, Kamal Jadidy Aval	
Language Learning Generators — From Traditional Language Learning Methodologies to Future Computer Assisted Technologies	158
Eva Zanuy
