International Journal of Computer and Communication Engineering

---

## Volume 5, Number 6, November 2016

- Comparative Analysis of Dual Secure Based Medical Image Watermarking Technique to Increase Security of Watermark Data Using BFOA** **381**  
C. H. Venugopal Reddy, P. Siddaiah
- A Dynamic Method of Constructing MST Based on OpenFlow Protocol** **398**  
Haike Liu, Jilin Li, Kai Yang
- Stochastic Delay Analysis of Multi-services in Power Communication Networks** **409**  
Yang Zhou, Li Yu, Juhong Tian, Chao Luo
- Design and Performance Analysis of OpenFlow-Enabled Network Topologies Using Mininet** **419**  
Idris Zoher Bholebawa, Upena D. Dalal
- REGENT: A Framework for Realistic Generation of Network Traffic** **430**  
Dinil Mon Divakaran, Kar Wai Fok, Li Ling Ko, Yung Siang Liau, Vrizlynn L. L. Thing
- Filtering Source-Spoofed IP Traffic Using Feasible Path Reverse Path Forwarding with SDN** **441**  
Kevin Benton, L. Jean Camp, Tim Kelley, Martin Swamy
- Statistics-Based Matching Cost Function for Intensity Transformation** **455**  
Phuc Nguyen Hong, Chang Wook Ahn

## Dynamic Capacity Routing in Networks with MTSP

Ranjana Ponraj, George Amalanathan

**465**
