International Journal of Computer and Communication Engineering

Volume 6, Number 2, April 2017

- A Security Enhanced Lightweight Mobile Payment Scheme Based on Two Gateways** **83**
Hakjun Lee, Jiye Kim, Jongho Moon, Dongwoo Kang, Dongho Won
- Metadata Management and Materialization of Composite Documents in a Digital Library** **91**
Anh Tuan Ly, Nicolas Spyrtos
- A Cross-Layer Congestion Control Algorithm Based on Traffic Reallocation in Wireless Sensor Network** **104**
Huaiyu Wen, Weidong Huo
- Latent Effects of Cloud Computing on IT Capacity Management Structures** **111**
Joe Bauer, Al Bellamy
- Considerations in Designing DCI (Data Centre Interconnect) in Full Mesh VPLS/Multicast Enable WAN over OTV Tunnel** **127**
Arsalan Iqbal, Steve Benoit, Usman Dar
- On a Characteristic of Data Transmission with Three or More Priority Levels in Bus Network** **137**
M. Ooki
