International Journal of Computer and Communication Engineering

Volume 7, Number 4, October 2018

Virtual Force Based Sink Relocation Strategy in Wireless Sensor Networks	107
Chengdong Wang, Xin Yang, Yong Feng, Mingjing Tang	
Empirical Noise Modelling in Power Line Communication Systems	119
Guoping Chen, Gonghai Yang	
A Literature Review of Historical and Detection Analysis of Botnets Forensics	128
Ade Kurniawan, Ahmad Fitriansyah	
SPOTur—Tourists Protection and Orientation System in Inhospitable Environments	136
Jos éPaulo Lousado, Armando Cruz, Sandra Antunes	
A Collaborative Platform Featuring Visibility, Tracking, Monitoring and Awareness for Building Security In.	145
H. M. K. K. B. Herath, G. D. S. P. Wimalaratne	
Enhancing Particle Swarm Optimization Using Opposite Gradient Search for Travelling Salesman Problem	167
Thirachit Saenphon	
Malware Analysis on Android Using Supervised Machine Learning Techniques	178
Md. Shohel Rana, Andrew H. Sung	
Comparative Study on Different Classification Techniques for Spam Dataset	189
Sanaa Hassan Abou Elhamayed
