International Journal of Computer and Communication Engineering

---

## Volume 8, Number 4, October 2019

- Employing the Proactive Algorithms and the Design Structure Matrix Method for Load Balancing in UND Networks** **138**  
Mohamad Salhani
- Blockchain Enabled Privacy Security Module for Sharing Electronic Health Records (EHRs)** **155**  
Li Yue, Richard Nuetey Nortey, Michael Adjeisah, Promise Ricardo Agbedanu, Xinyi Lui
- Research on Intelligent Anti-collision Monitoring for Construction Tower Crane Group Based on GNSS Sensors** **169**  
Mingduan Zhou, Qianlin Wang, Hongjie Tan, Miao Wang
- Single Event Effects Tolerant AES-CTR Implementation for Authentication of Satellite Communication** **178**  
Syed Jahanzeb Hussain Pirzada, Abid Murtaza, Liu Jianwei, Tongge Xu
- Review and Prospect of the Development of Multi-beam Reflector Antennas** **194**  
Hongge Wei, Zhengjun Li
